## FAQs

### 1. What's Pizzalnu

Pizzalnu is a meme project built on BSC with auto-added Liquidity & auto-burned \$PINU tokens mechanism. This is an innovative initiative operated by an internationally experienced team to bring investors an incredible opportunity for investment in the crypto market.

### 2. Why Pizzalnu?

The market is on somewhat dismal days, so we want to start a funny project to raise the attitude of investors. Besides that, we have observed the trend and rapidly caught up with it in the belief that this will be the basis for the long-term growth of Pizzalnu.

### 3. How to earn more \$BNB with Pizzalnu?

To be eligible for \$BNB incentives, you need to own at least 20 million \$PINU. Therefore, you can make more \$BNB by holding more \$PINU. In other words, your reward will be proportional to the amount of \$PINU you've purchased. And of course, you should grab more \$PINU as soon as possible while it's still at a cheap price.
